

THE WORLD OVER
TABOR TRINKETS SELL FOR \$700
NON. STOP HOP TO MONTREAL
\$67,000 FOR ALBERTA PROJECTS

DENVER — The Tabor trinkets—remnants of a fortune estimated at \$1,000,000—went at auction for a little more than \$700.

Most of the moments of the late Elizabeth (Baby Doe) Tabor cherished for more than a third of a century following the decline of the Tabor luck and the death of H. W. Tabor, went to a group of wealthy Denver persons Saturday. Among them was the \$7,000 silk brocade wedding dress in which Baby Doe was married to Senator Tabor in a Washington ceremony attended by President Chester Arthur.

EDMONTON—Rear H. Van Valkenburg, Edmonton fish, announced Saturday that he would attempt a solo non-stop flight from Edmonton to Montreal on July 1 in a high-wing monoplane which he constructed himself.

Van Valkenburg built his plane, the Bayamo M-3, during the winter and hopes to span the 2,000 odd miles to Montreal in the space of 18 hours. The plane, which has just been completed, next week will undergo final tests, and Van Valkenburg plans to hop from the Edmonton airport at 10 a.m. on July 1.

Bayamo M-3 is powered with a 125 horsepower motor.

With the exception of the motor instruments and wheels, the entire plane was constructed by the Edmonton flier.

OTTAWA — Additional appropriations for public works are provided in the supplementary estimates tabled Monday in the House of Commons. Votes for public buildings provide the following expenditures: Saskatchewan, \$24,500; Alberta, \$17,000; British Columbia, \$24,500, and public buildings generally, \$23,500.

For harbors and rivers, appropriations include: Ontario, \$450,000; Manitoba, \$25,000; Saskatchewan, Alberta, and Northwest Territories, \$12,000; and British Columbia, \$25,000.

Appropriations for Alberta are: Canyons, "baracks" for permanent force, \$40,000; Canadian, public building, \$40,000; Charlevoix, purchase of building for public purposes, \$5,000; Edmonton, building for Department of Pensions and National Health, \$60,000; Innisfail, purchase of building for public purposes, \$4,000; Lacombe, purchase of building for postal purposes, \$1,500; Okotoks, purchase of building for postal purposes, \$4,500; St. Paul, public building, \$15,000.

Bodies of hundreds of wild ducks, apparently victims of choking dust storms on the high southwestern plains, through which they passed on their way toward spring migration, have been found around mountain lakes in Montana. Examination of their lungs and stomachs showed them to be filled with dust and hardened mud. A number of hawk bodies were also found.

The job done of an axe is just as dangerous a weapon these days as it was in Samson's time.

THE WORLD OVER

BANK MONTR'L CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

General

With frequent and well distributed rains during the past two weeks, crop prospects are promising in practically all areas of the prairie provinces. Early June frosts have not damaged grain crops but market gardens have suffered to some extent. Warmer weather would have been beneficial. Crops in all other provinces in the Dominion. In Quebec growing conditions are satisfactory, although warmer weather is now needed. In Ontario excellent progress is being made by all crops. In the Maritime Provinces a marked improvement in all crops is shown but here again warm weather is required. In British Columbia, owing to the dry spell in May, below average yields are indicated though recent rain has materially improved conditions.

Prairie Provinces

Alberta—Crops are backward but conditions generally are favorable. Moisture conditions are satisfactory except in the southeastern area, where wheat shows strong even growth. Pastures and ranges are in good condition. Sugar beets are making good headway.

Saskatchewan—All grains are making good progress. Plants are well rooted and have color. Moisture conditions generally are satisfactory, although further moisture is required in the southwestern area. Recent rains have improved prospects in the west central area; where soil drifting has occurred. Scattered areas report damage from cutworms and wire worms. Hatching of grasshoppers has been retarded by wet cool weather. Pastures are in good condition.

Manitoba—Wheat growth is uniform and vigorous. Plants are stealing well at an average depth of 1 1/2 inches. Moisture is ample for the present and prospects for all crops are promising. Grasshoppers are hatching in some districts but are not menacing. Pastures are in good condition.

Ontario—Wheat growth is uniform and vigorous. Plants are stealing well at an average depth of 1 1/2 inches. Moisture is ample for the present and prospects for all crops are promising. Grasshoppers are hatching in some districts but are not menacing. Pastures are in good condition.

Appoint New Agriculturists

Archie A. Campbell, formerly of the C.P.R. Irrigation Branch has been appointed agricultural agent for the Provincial Department of Agriculture at Lethbridge, replacing M. L. Peng, who was transferred to Brooks district some weeks ago.

CARBON PLAYS AT DRUMHELLER

The Carbon Lawn Tennis Club players journeyed to Drumheller on June 28th to play a match with the Drumheller Lawn Tennis Club players. Nine events were played and resulted in a win for the Drumheller players by six events to three.

The feature match was the play of Annie Lenay, the 11-year old girl player of Carbon, who, after being down 4-5 and 6-0, won with match point against her, pulled up to take the set and match at 7-5, in the third set.

The following are the results and scores:

Men's Singles—E. Code, Drumheller, defeated R. Ramsey, Carbon, 6-1, 6-2, 6-4. R. Ramsey, Carbon, defeated E. Code, Drumheller, 6-1, 6-2, 6-4. R. Ramsey, Carbon, defeated E. Code, Drumheller, 6-1, 6-2, 6-4.

Men's Singles—P. Dixon, Carbon, defeated R. Weir, Drumheller, 6-1, 6-2, 6-4.

Men's Doubles—W. Dixon and E. Code, Carbon, defeated M. L. Ramsey and R. Weir, Drumheller, 6-1, 6-2, 6-4.

Ladies Singles—Miss A. Lenay, Carbon, defeated Miss M. Ramsey, Drumheller, 6-1, 6-2, 6-4.

Ladies Doubles—Miss A. Lenay and Miss M. Ramsey, Carbon, defeated Miss M. Ramsey and Miss A. Lenay, Drumheller, 6-1, 6-2, 6-4.

Mixed Doubles—N. McClure and E. Code, Carbon, defeated R. Ramsey and R. Weir, Drumheller, 6-1, 6-2, 6-4.

CARBON WINS AT CARSTAIRS

The Carbon Lawn Tennis Club visited Carstairs on Wednesday June 29th and defeated players of the home club by four events to one.

The Carstairs courts were in good condition for this match and an interesting afternoon of tennis was spent. The following are the results and scores:

Men's Singles—N. Nash, Carbon, defeated J. R. Ramsey, Carstairs, 6-1, 6-2, 6-4. J. R. Ramsey, Carstairs, defeated N. Nash, Carbon, 6-1, 6-2, 6-4.

Men's Doubles—C. Ramsey and E. Code, Carbon, defeated J. R. Ramsey and J. R. Ramsey, Carstairs, 6-1, 6-2, 6-4.

C. Ramsey and E. Code, Carbon, defeated J. R. Ramsey and J. R. Ramsey, Carstairs, 6-1, 6-2, 6-4.

C. Ramsey and E. Code, Carbon, defeated J. R. Ramsey and J. R. Ramsey, Carstairs, 6-1, 6-2, 6-4.

SOFTBALL NEWS

Several softball teams from Carbon and West Carbon journeyed to Hockley on Sunday last. The Carbon team defeated the Hockley team with a score of 11-5. The West Carbon team defeated the Hockley team with a score of 11-5.

GAMBLE SOCIAL CREDIT GROUP HOLDS SUCCESSFUL PIE SOCIAL AND DANCE

The Gamble Social Credit Study Group held a Pie Social and dance in the Gamble school house on June 21st, which was greatly enjoyed by all present.

Mr. Wright, our local auctioneer, disposed of the pie in his usual capable manner, stressed "Just Price" and no pie went over the dollar.

Mr. Art Hudson, the president, acted as floor manager and put young and old in the mood for dancing. The dances consisted of wide variety.

The orchestra was composed by local people and we take this opportunity of congratulating them on their splendid playing.

After paying the orchestra, and the lunch, enough money remained to fully make up our share towards the District Constitution Social Credit Candidate fund.

ONEAK THIEVES ENTER

Ramsey Nash reports that one of his shacks last Wednesday afternoon or evening, while he was away to the Drumheller-Stanislaus, and took some of the fine heavy reserves which had been kindly given to him. It seems a pity that one's shacks should not be left unlocked for a few hours without some one helping himself to your possessions. The guilty party will not be caught and one who takes the straight and narrow path in the future.

By the way, Ramsey had a few choice "horn toasts" for the Editor to publish, but we have to draw the line somewhere and these "toasts" happen to be on the far side of the dividing line. However, if you can read his writing, these choice morsels are on the files of the Carbon Chronicle for your perusal.

TO MASS MARCH ON CAPITAL

OTTAWA — Following conferences between western relief camp anti-socialists and crime representing organized unemployed in Ontario and Quebec, with Prime Minister R. B. Bennett and members of the cabinet Saturday, the delegates held a joint meeting here. At its conclusion, the following statement was issued jointly by Arthur Evans, leader of the British Columbia "On-to-Ottawa" marchers; Ernest Lavigne of Toronto president of the National Unemployment Council and J. G. Beland, of Montreal, representing the Quebec Conference: Held

At a conference of unemployed delegates representing British Columbia, Alberta and Saskatchewan, Quebec Unemployed Federation, Vancouver Relief Project, following the recommendations of these bodies to the government, at which their demands were refused, a mass trek to Ottawa was approved.

In the course of a few days a national call will be issued jointly by the

Marking All Rivers

As a matter of information for tourists, both resident and non-resident, the Province of Alberta, and the Province is announcing the suggestion of Hon. J. J. McLean, Minister, to place signs on all bridges crossing rivers and to mark the location of highways throughout the Province, conveying information as to the names of the rivers.

Junior Grain Clubs

A total of 123 Junior Grain Clubs have been organized in Alberta this year, with over 2,000 members, compared with 104 clubs in 1934.

Highway Programme

Paying the way for completion of the all-weather highway to Jasper and for work on the trans-Canada highway section to Banff, Hon. George Howland, Minister of Public Works, in addition to a \$1,000,000 grant, will contribute to the Federal loan of \$1,000,000 for relief camps in the West recently. This

amounts to definite portion of the 1935 programme. Mr. Howland said.

The Calgary-Hamilton highway, in which repairs were being made, was now capable of travel throughout without delays. Progress is being made on the construction of the small remaining sections of the Edmonton-Jasper highway, and travelling of these sections will be done in August, when the road will be completed as an all-weather highway. A further section of the Peace River Highway north of Edmonton, which is expected, also will be completed this season. Hon. J. J. McLean, Minister of Public Works.

The Workers' Unity League, Relief Camp Workers' Union and the National Council of Unemployed are sponsoring a relief camp conditions and to bring the list of these workers before the public. It will also bring before the public and reveal the situation of Premier R. B. Bennett to the delegates who presented their case to the government Monday.

The call will appeal to all unemployed organizations, trade unions and C.P. bodies, as well as those middle class people who have supported the relief camp workers' trek.

Letters to the Editor

Sir:

Mr. Schoeppe very kindly tells me not to worry as to where all the money will come from when Mr. Aberhart becomes Premier. But that does not do any harm. Mr. Schoeppe has not answered any of my arguments.

Possibly that is my own fault. I have not made them clear enough. Perhaps like Major Douglas I have wrapped them up in such a conglomeration of words that no plain person understands what I am driving at.

Therefore with the editor's kind permission I will repeat them and try to make them clear.

First, I maintain that unless there are good federal dollars behind Mr. Aberhart's non-negotiable certificates they will only be waste paper. Mr. Aberhart says that they are only money. Cheques are worthless without money behind them.

I am aware that at the beginning of his campaign, Mr. Aberhart spoke vaguely of these certificates being backed by the natural resources of the province. Now the resources which are owned by the government are minerals and wild lands. The government rents out all it can as coal leases, oil leases, and grazing lands which go toward the general expense of government. How then is Mr. Aberhart going to get any extra value out of them to back his certificates?

However these simple facts have not been pointed out by Mr. Aberhart, because lately we have heard nothing about backing his certificates by natural resources.

My second point is that Mr. Aberhart does not know that practically all our troubles in Alberta come from the fact that we farmers are getting too little for our wheat. When we had two dollar wheat everything was jake. The farmers spent the millions they got in Alberta and the money percolated through all the people. Wage earners, store keepers, wholesale dealers, miners, doctors, lawyers, teachers all got a share of it. For the farmers are almost the only ones who bring money into the province; store-keepers and wholesale dealers send lots of money out but don't bring any in. The farmers, in short, are the men who bring home the bacon.

But Mr. Aberhart does not know this. The poor man actually thought that he would be helping the country by putting a tax on wheat and was

very mad, not to say impolite, when the C.P.A. delegates could see it that way.

So that, to my mind, calling in Mr. Aberhart to help us, is like calling in a physician who does not know what is the matter with us and who sets to work to cut us up and who perhaps will find out his mistakes after we are dead.

Next, Mr. Aberhart has now found out that the price of wheat is often below the cost of production and he proposes to tax all imports, that is 50 per cent of all the goods we buy to help the farmers.

But he will think he can not understand from manufacturers to finance his certificates.

Now according to the Canadian Year book of 1932 the gross value of the output of all Alberta factories was about 55 millions or a little more. Of that over 40 millions was spent for wages and raw materials. Of the 14 millions odd which was left the manufacturers had to pay two income taxes, one to the province and one to the Dominion, provide for their plant, repairs and depreciation and usually pay interest on mortgages which they have taken out on their businesses.

Even if Mr. Aberhart could grab the whole 14 millions from these manufacturers, he would still be short 100 of the 120 he needs to give everybody 25¢ a month. Since Mr. Aberhart can not get money from our natural resources, he must get it from taxes on what, or from manufacturers, where in the name of common sense is he going to get the 120 millions he requires? Our present government only succeeds in collecting about 15 millions in taxes for necessary government services.

Truly as Major Douglas says, we should not take Mr. Aberhart's proposals too seriously, unless he really attempts to put them into practice.

Yours truly,
A. M. THORNTON
Hesketh, Alta.

REV. S. EVANS, in charge

An Address To Young People

The following address was given by Rev. Wm. McNeill, M.A. at the Carbon United Church on Sunday morning, June 16th.

The question as to what I ought to talk to you about this morning is one of great moment. There are so many questions that arise that concern young people today that it is difficult to say what one to place in the forefront, and may this one appear. At your age, the question of choosing a life work ought to be considered very seriously. I know it is one of you are deeply concerned about at the present time. It is a question you cannot afford to make a mistake in. For a mistake here is a mistake for life. Many young people choose at haphazard. Some take up a certain line because their parents want them to irrespective of their own. Others because it seems easy, or there's money in it. It has been estimated that out of every 100 boys, 5 turn out failures (criminals). It is some successful failures (using wealth selfishly); 58 vocational failures (just because into their jobs); and 12 are successful in every sense of the word. That is less than one out of every eight young people find their proper life work. Young people, are you aware of the fact that God has prepared every man to do a definite piece of work, and that He is calling every man to do his own work. It is true that He has given man his freedom to choose, but never-the-less He expects man to seek and find his faithful work and do it. It is up to each individual then to look into himself to study himself; to find out for himself just what God has qualified him for and follow that. How much better to be a successful farmer than a business failure; or a divinely chosen than a storked minister or professional idiot. So many men think that they are called to fill the chairs of the mighty when they have only qualification to work in the forest or in the field. Young people study yourselves and your God given qualifications and follow the line you find that God has fitted you for, and I assure you that if you do, in old age you will not have to mourn that you have made a failure in life. Remember there are no failures among the men who follow the line God has prepared out for them in their mental and physical endowment.

I might speak to you today on the choice of companionship; temptations; extraneous; getting used to; setting by. Or I might speak on being a good sport; playing the game; or playing to the gallery; but I am leaving them all up for something that I consider of much greater moment and something that I think is in some measure related to each and all others. I want them to talk to you for a few minutes on being anchored. The Bible speaks of the vessel who is anchored. "Which kind you have as an anchor of the soul, sure and

All schools in the province close for the summer vacation this week and.

Don't forget to attend the Carbon and district school sports on Friday afternoon of this week.

The Carbon Social Credit Group is making rapid progress in its collection for funds to sponsor a broadcast over C.F.C.M.

Andrew Beyer has purchased the Paul's Service Station business from P. W. Schoeppe and has now taken possession. Included in the deal was the John Deere and other agencies held by the former proprietor. We understand that Mr. Schoeppe figures in locating at Rockyford or Trochu although nothing definite has been decided.

Dust and high winds prevailed all day Tuesday, although danger of soil drifting is past with the growth of new wheat now well above the ground.

Mr. and Mrs. M. J. Martin and Mr. Roy Harris of Delta visited Sunday visiting at the home of Mr. and Mrs. Q. Cadman of Carbon district. In conversation with Mr. W. Leving of Carbon, he stated that rain had not been as heavy in the Delta district as we have had here, and grasshoppers are beginning to damage the growing grain.

steadfast, and which entrench itself within the veil," etc. I suppose very few of you have ever been on a large vessel putting to sea. Those of you who have may remember seeing in front or bow of the vessel, a large anchor, or perhaps more than one, and a great roll of chains. No true captain ever thinks of putting out to sea without an anchor or cable. You may say he would have no use for an anchor on the broad Atlantic or wide Pacific. While far from shore that is true, but sooner or later if the voyage proves successful he must draw near the coast line or harbor, and who can tell when a storm may break and the need arise to cast anchor and save his vessel from drifting upon some rock bound coast and going to pieces? Besides if there were no anchor on board the passengers would fear of what might happen when the vessel would come within sight of land. Now every boy and girl needs to have home as an anchor of the soul. On starting out on a career of your own, I would say to you today, one of the first and greatest essentials is faith in God. Some people seem to think that religion is a good thing to do by. I want to tell you of something better than that—it is a good thing to have. It is well to have it in sickness; in sorrow, and in trial. It is a wonderful sustainer, but it is far better to have it when everything is going well; when times are prosperous; and when the days are quiet and the sea is calm. If your mind is held on God at such times there will be little trouble when the storm breaks, and the waves beat violently against your bark.

As the anchor is often of great service in times of storm and stress so faith in Jesus Christ becomes a sustaining and comforting in times of difficulty, trial and sorrow. Sometime later there comes to every life times when we will be in great need of an anchor, and if we have one and cast within the veil, it will secure us against making shipwreck of our lives. To be of some use the anchor must take hold of something that will steady him; something that will keep him from drifting; something that he can cling to as a buoy who falls into the water would cling to a plank—he grips it and holds on to support his body and keep it from sinking; so every one in trouble reaches out to lay hold on something to steady and support him in it. Now this text says that the Christian hope lay hold on something within the veil, and that thing is Jesus Christ. It is like the vessel whose anchor is cast overboard and it goes down and lays hold on the earth and rocks at the bottom of

the sea. The greater the strain on the vessel the deeper that anchor sinks into the bottom far beneath the waves, and far out of sight of all on board. So the faith of the Christian is steady on the things that are seen, not on friends, nor on situation, nor on wealth, or good works or any such thing but on Jesus Christ Himself, for the anchor is cast within the veil where the forerunner is for us enter— even Jesus. This figure carries us back to the temple on Mount Moriah, to the Day of Holiness, and the veil hanging from the Holy Place. The common people were not allowed to enter within that veil. It shut out all within from their gaze, but when we have the faith of the Christian, although we cannot as yet fully enter into the great mystery of God's love and mercy towards us, yet our faith has hold of that which is beyond our understanding, and beyond the possibility

of our seeing, or fully comprehending. God's grace, but by our faith we can and lays hold on that which is within and do believe in them, and thus enter into the mysteries of the veil into them.

CARBON TRADING CO.

The accompanying chart shows how the price of gasoline to the retailer has decreased and the gasoline tax has increased since 1924. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

FALLING PRICES—RISING TAXES

IN 1924 the average price to the retailer of all gasoline sold in Canada was 26.6 cents per Imperial gallon. Since 1924 the price has fallen steadily and continuously and for 1933 and 1934 it stood at 18.8 cents—nearly eight cents less than in 1924.

"But," you say, "gasoline does not cost me eight cents less a gallon than ten years ago."

You are right, and this is why: In 1924 the gasoline tax was new in Canada and the total gasoline tax collected in that year amounted to

an average of only a little more than 3/4 of one cent for each gallon consumed. But as the price of gasoline fell the tax on gasoline rose to higher and higher levels until in 1933 it amounted to nearly 5 1/2 cents for each gallon consumed in Canada.

When you buy a gallon of Imperial gasoline you also pay other taxes totalling about 8 1/10 of one cent. The profit which Imperial Oil earned on each gallon of gasoline that it made and sold during 1934 was just over 5 1/10 of one cent per Imperial gallon.
